## Acupressure Massage Bed Machine

Regular use of massage bed machine will improve body health as your spine alignment is corrected and maintained.

### Acupressure Massage Bed Principles

**Chiropractic** It is said that spine is the root of the human body. The nervous system which runs down the spine controls and coordinates all the functions of the body. Therefore, the whole body simply functions better by correcting misaligned vertebrae that has been caused by everyday life. Regular use of the Massage Bed helps to re-align the spine.

**Massage** The Internal Projector (Jade Roller) moves along natural curves of the spine to stimulate circulation. In addition, it promotes relaxation of the muscles and tendons around the back of the body.

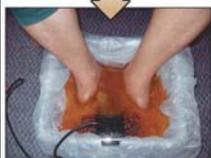

**Acupressure** Specially designed internal & external projectors give acupressure along five energy channels of the back, thereby relieving a variety of symptoms and pains.

**Far Infrared Ray** The patented epoxy carbon panel, developed by Ceragem scientists, increases the efficiency of the emission of the far infrared ray, which can deeply penetrate into skin and the under laying tissues. It warms up the body expanding blood vessels, improves blood circulation, increasing general health and relaxing the body.

**Moxibustion** (Heat Treatment) is a technique used in traditional Eastern medicine. Internal Projector (Jade Roller) heats over back of the body to stimulate and strengthen the blood circulation. It also helps the energy flow of the body and reduces muscle tension.

## iDetox Foot/Hand Treatment

iDetox can help effectively support a detoxication program and most natural /alternative health care modalities.

It is an external detoxication method, which remove toxins through the feet. The body detoxifies while you are comfortably sited in a container of warm water. This is a very efficient way to remove toxic accumulations regardless of where they are located in the body.

The Ion-Cleanse Process generates a stream of positive and negative ions (charged atoms), which attract and attach themselves to oppositely charged toxic particles and draws them out of the body through the skin. Each session takes about 30 minutes. The water changes colour, indicating which area of the body may be detoxifying.

The toxins in our bodies will look the same as the toxins predominant in a specific area; however, there will be more toxic particles in the water with your feet in it.

The various colours indicate which area of the body maybe detoxifying. Black or brown is a liver, orange the joints, dark green the gallbladder, yellow/green the kidney, urinary tract, white foam the Lymph nodes draining, black flecks are heavy metals.

Many people with pain, oedema, gout and swollen or deteriorating joints report considerable symptomatic relief from Ion Cleanse session.

## Massage Services Designed for the individual

**Remedial Massage**  
**Deep Tissue Massage**  
**Acupressure Massage**  
**Lymphatic Drainage**  
**Aromatherapy Massage**  
**Relaxation Massage**  
**Pregnancy Massage**  
**Foot Bath and Massage**

### Main benefits of therapeutic massage:

- Boosting the immune system
- Stimulating the nerves system
- Reducing pain
- Increasing lymphatic and venose flow
- Increasing capillary circulation
- Improving joint mobility, range of motion
- Relief from headache, sciatic, lower back, neck & shoulders pain.

## Cupping Therapy

It is the best deep tissue massage available. Cupping therapy is an ancient Chinese massage method. Vacuum is created in cups

placed on the skin that draws up underlying tissues. When the cup is rolled up the skin, or left in place for 5 to 15 minutes, blood stasis is formed and healing takes place. Cupping therapy causes tissues to release toxins, activate the lymphatic system and clear blockages. Even a single treatment shows impressive and remarkable results.

## Denas Therapy

### Dynamic Electro Neuro Adaptive Stimulation

It is a holistic form of medicine, which stimulates the nervous system and guides the body to heal itself.

Denas is one of the modern directions of reflex therapy and intended for using in many spheres of medicine as a part of complex treatment and as a monotherapy.

Denas therapy acts by medical non-invasive and anti-pain portable electric stimulator of biologically active points and zones.

### Denas Therapy Can Help

Nervous system diseases, endocrine system diseases, nutritive and metabolic disorders, circulatory system diseases, respiratory organs diseases, digestive organs diseases, diseases of bones, muscles and connective tissue, thermal and chemical burns, complications of surgical and therapeutic interventions, sports medicine, fatigue.

### Denas Therapy Effects on Human Body

Anti-pain effect, vascular effect, effect of relaxation of unstriped and skeletal musculature, anti-edematic effect, antiinflammatory effect (general and local), antipyretic effect, anti-allergic effect, immunomodulatory effect, effect of normalization of metabolism, effect of normalization of hormonal status, arresting bleeding and trophic (healing) effect, cosmetic effect, reanimation effect, anti-stress (general regulating) effect.
